KANOO SHIPPING PROFILE

Kanoo Shipping a division of Yusuf Bin Ahmed Kanoo—one of the largest and independent, family-owned groups of companies in the Gulf Region. From being the first shipping agency in the Arabian Gulf region in 1912, it has grown into the largest regional shipping agency in the Middle East, handling 20,000 port calls per annum. Our professional network of offices stretches from Suez, across Middle East, to Indian Sub-Continent, down to South Africa. The company serves cargo and ship owners, maritime infrastructure contractors, as well as entities in the sectors of oil & gas, dredging, and Military & Navy vessel calls and inland exercises.

As the region's premier tanker agent and offshore service provider, Kanoo Shipping represents many of the world's leading shipping owners, operators, and charterers. It offers regional, trans-regional or global coordinated financial and port-call management services, tailored to individual corporate needs.

Furthermore, the division places high focus on building a highly visible HSSE culture throughout our organization—including our staff, crew members, and other personnel under our care.

Established in Bahrain in 1890, Yusuf Bin Ahmed Kanoo has grown from its early trading and shipping roots to become a diversified and highly regarded business conglomerate in the Gulf region and beyond.

The family company, established by Haji Yusuf Bin Ahmed Kanoo, has remained true to their early values—adhering to the highest level of ethics and beliefs that has led to the Kanoo name becoming synonymous to trust, reliability and quality.

What we do:

- Owners and Charterers Operational Requirements
- Owners and Husbandry Requirements
- ISO Tank Container Logistics
- Offshore Logistics
- Marine Work
- Military and Navy
- Liner Representation
- Port Captain and Super Cargo Services

Value we add:

- Niche specialists in Dry Cargo and Bulk Liquids
- Market Intelligence and Information Sharing
- Operational Excellence
- Web Interface for our Customers

Our latest system Kanoo Port Interface (KPI) provides an interface between our Clients IT system and our VPN/web based 'Simply5' platform. The System enables Kanoo Shipping to manage vessel operations and port call finances through the platform which is then synchronized with the client interface called "Kanoo Port Interface".
